What is NLP?

NLP is the science of excellence.

Developed by Richard Bandler, John Grinder, Robert Dilts, etc in the 1970s, NLP is the Powerful Technology for fast positive change in individuals and organizations.

By understanding the language of the brain through NLP, one can **define Goals with clarity** and **harness the immense power of the subconscious to attain them**. NLP helps one to **Model Excellence** in every aspect of life.

Who can practice NLP?

No prior training or qualification is required- Just have an open mind and the willingness to learn. NLP assists Self Growth and helps to get in touch with the deeper Self in others. NLP hence is most useful for people in the Helping Professions, like Teachers, Doctors, Social Workers, Counselors etc and those in Leadership Positions like Managers, Team Leaders, Heads of institutions etc.

What are the benefits of NLP Training?

ATMA NLP Basic Practitioner Training enables you to -

- **Envision Goals and define Outcomes with Clarity**
- **Access internal Resources to Achieve them**
- **Root out fears and complexes**
- **Improve Personal and Professional Relationships**
- **Increase the range of what you see, hear and feel**
- **Design interventions for individual and organizational change.**

Why at ATMA?

At ATMA, we focus on experiential learning.

We believe that intelligent application is more effective than intellectual understanding.

Focus on Pure NLP	The ATMA NLP Basic Practitioner Workshop deals with pure NLP – without any dilution from other branches of behavioral psychology. The participant also gains an insight on the special features of NLP, and how to use NLP in conjunction with other such sciences
Therapy orientation	Our workshop is designed to give every participant hands on experience in the therapeutic application of NLP – for self and others.
Expert faculty	Our NLP workshop is a rare opportunity to learn NLP directly from NFNLP accredited trainer C K Suresh, Counselor and Leadership Guru, who has trained with NLP stalwarts like Dr William Horton and Dr Richard Mc Hugh. His straight – forward approach and unambiguous presentation give the participants a clear insight into the concepts of NLP.
Subsidised rates	As an organisation committed to Empowering Individuals and Organisations, we offer the 4 day non residential program at highly subsidized rates

We support ATMA NLPers to deepen their understanding and sharpen their skills of NLP by participating in our later Basic Practitioner Programmes at just 30% of the programme fee.
